American Tactical is proud to announce our relocation to Summerville, SC.

As one of the gun industry's top importers of firearms and firearm-related accessories, we believe it is imperative that a firearms importer and manufacturer do business within a state that is friendly to the second amendment rights of the people.

It is also important that we are close to the point-of-entry into the country for several of our imported products. The relocation to South Carolina ensures that both of these factors are met.
OMNI HYBRID

THE ONLY ONE OF ITS KIND in the AR Lower Market today—

Our ALL NEW OMNI HYBRID features a patent pending inter-lock hammer and trigger pin retention system, preventing movement from the hammer and trigger pin during firing. The Omni Hybrid also features our patent pending over-molded metal insert, which reinforces the buffer tube housing and rear takedown pin. This allows for metal-on-metal contact with both the buffer tube as well as the rear takedown pin thus increasing strength and durability from recoil and consistent firing. The Hybrid is compatible with most AR-15 parts kits, grips, and stocks.

The MP-40 (Machinenpistole) was developed in Nazi Germany during WWII. Pre-dating the STG-44, by the end of the war the MP-40 and its derivatives were being issued to entire assault platoons on a limited basis. Retaining as many of the original specs as possible, the GSG .22LR version of this piece of history flawlessly sends 28 rounds of ammo accurately and quickly downrange, and is perfect for casual plinking, target shooting, and hunting. Bringing back the original Bakelite support under the barrel, easy-to-adjust iron sights, and simple safety features add to the MP-40’s superb level of quality. Packed in an old-world style pine crate made by Amish craftsmen, the MP-40 offers everything to make any shooting experience a memorable one.

GSG 1911’s

When John M. Browning invented his classic pistol in 1911, he could not have imagined that for over a century it would remain the standard of excellence in the industry, reproduced by almost every arms manufacturer in the world. The .22LR version developed by GSG retains the 1911’s classic uniqueness along with exciting new technology and features, including several safety functions to meet today’s rigorous standards. From casual plinking to competitive shooting, the GSG 1911 belongs in the hands of everyone who wants an excellent pistol at a great price. And if you own almost any .45 1911, GSG offers a compatible slide .22LR conversion kit with a 10-round magazine for years of money-saving shooting enjoyment.

American Tactical provides warranty service, parts and repairs for our products. If you believe your American Tactical product or American Tactical branded product needs service or replacement, please email TechService@AmericanTactical.us. To aid in service, be sure to include details, brand, serial number, and serial number of the firearm in question, as well as the owner’s name, address, city, state, zip, email address and phone number. One of our representatives will assist you and provide further instructions.

All returns for service or repair require a Return Authorization (RA) number to be issued by an American Tactical representative. No returns for service will be accepted without an American Tactical representative will contact you before further action is taken.

All firearms returned to American Tactical for service can only be shipped back to the original sender address. Change of return shipping address once received is not authorized.

If you are returning a pistol, they are not mailable through the United States Postal Service and must be shipped using commercial or contract carriers (U.S.E.C. or UPS). All firearms returned to American Tactical for service can only be shipped back to the original sender address. Change of return shipping address once received is not authorized.

Our products are designed for personal protection and are legal for non-law enforcement and recreational use. Our products do not comply with any state or federal law enforcement use, anti-terrorism laws, or foreign arms embargoes. They are legal for non-law enforcement and recreational use by owners of these firearms and are not intended for military application.

Our products comply with all federal and state firearms laws and are manufactured to meet the requirements of the National Rifle Association (NRA), International Association of Shooting Sports (ISSF), and United States Airsoft Grand Prix (USAGP) standards. Owner of these firearms is solely responsible for the safe and legal use of purchase. The purchase of these firearms may be subject to registration, laws, and regulations.

In the event of unauthorized export, American Tactical may terminate its obligation to the buyer.
American Tactical Products are sold through the following Distributors.
